Abigail Harris: App Designer, Front-end Developer

abigail.elisabeth.harris@gmail.com | linkedin.com/in/harris-abigail | abbyharrisportfolio.com

Overview

I have a mix of skills from UX Research to UI Design, to Development. This means I work well cross-functionally and can do the work of several people. I've designed for multiple platforms, but my favorite is mobile app design. Check out the links in this resume or on my LinkedIn to see my most recent mobile app designs.

Skills

- Planning and conducting user Interviews and usability tests
- Rapid Prototyping in Figma
- Auto-layout and component creation in Figma
- Analyzing research data in Dovetail

- Sprint planning in Jira
- Supabase buckets, tables, Auth
- Bolt.New for UI development
- TypeScript, JavaScript, HTML and CSS
- React and Astro frameworks

- API calls
- JSON
- GIT, GitHub, Postman
- Loops
- Creating Digital Fliers in Canva and Spark Post
- Editing pictures in Photoshop and Lightroom

Experience

Mobile App Designer and Developer, Pair Skating App, May 2025-Present

- Created wireframes using **UX Pilot**
- **Prototyped** in **Figma** to gauge interest with users on TikTok
- Coded UI using **Bolt.New** integrating **Supabase** for the Backend
- Transferred code to VS code for more control to finish coding backend using **TypeScript** and **React**

Mobile UX Designer and Project Manager, Synergy, Apr 2024 - May 2025

- Led UX design and project management efforts, using **Jira** to plan sprints and **Figma** for wireframing, prototyping, and collaboration with other designers and developers.
- Developed a **research plan** outlining competitor analysis, target users, SMART objectives, and feature requirements.
- Conducted **user interviews** and analyzed usability test data in **Dovetail** to refine user flows.
- Designed **wireframes and prototypes** using Figma to show functionality and interactivity to developers.

UI Designer and Front-end Developer, Figma Plugin, Jan 2025 -Mar 2025

- Designed and coded a **Figma plugin**, Font Theme, that has 31 users and 4 likes.

- Coded the plugin using **JavaScript, HTML, and CSS.**

UX Designer and Project Manager, Freelance, Jul 2024 - Aug 2024

- Held **weekly meetings with the stakeholder client** to provide progress updates, present recommendations, and clarify project requirements.

- Conducted **user interviews with salon customers** and performed **competitive analysis** by benchmarking against 5-star-rated salons.

- **Wire-framed and prototyped in Figma**, collaborating closely with the developer through **Figma Dev**, delivering the project within a **5-week timeline**
